Students must show mastery, according to their level, in writing in their performance within the laboratory. **All students** must present themselves to the laboratory with their own laboratory anthology and an audio cassette. For the smooth running of the lab sessions, students must follow the directions of the teacher of the course as well as the personnel in charge of the Language Laboratory.

A test can combine different skills without having to have extensive proportions. In addition, these tests are a prerequisite for passing the course. See the 'Schedule of Topics' for each exam date. No test will be repeated, unless a justification under the Rules of Student Academic System is given.

COURSE POLICES

- Please note that university policy clearly and emphatically stipulate that all cell phones must be turned off during class.
- All absences must be cleared with the professor in order to continue with the course. One unjustified absence results in the loss of this course. An absence may be justified with a certified note from the UCR doctor or a death in the immediate family. In either case, the justification must be turned in no later than a week from the absence.
- Three late arrivals equal 1 unjustified absence---the same goes for leaving early from class.
- As always, pay careful attention to any changes in the syllabus we might agree upon.
